

High Performance "E6[®] Enhanced Glass Fiber"
Will Promote the Progress of Composites.

E6[®] Enhanced Glass Fiber

- High Performance Environment-friendly Fiberglass
- Compliant with ASTM D578 and ISO 2078 Standards
- An Optimal Combination of Boron-free E-glass and E-CR Glass

COMPANY PROFILE

China Jushi specializes in the production of glass fiber. The company has attained the leadership position in the global glass fiber industry in terms of Output, Technology, R&D, Quality and Market Share. Jushi Group is a Chinese national, key high technology enterprise, operating a distinguished Post-Doctoral program.

Jushi always adheres to its fundamental Management principles:

- "Apply science and technology for development.
- Build the brand name to expand market share.
- Emphasize management to improve efficiency and
- Employ talented people to enable future growth".

The company owns proprietary, world-class core technologies

GOALS

Enhance Product Performance

Expand Applications

Minimize Environmental Footprint

Increase Customer Satisfaction

With the rapid development of new applications, the design of fiberglass composite parts is becoming more and more demanding, requiring composite materials to deliver better performance, including increased strength, lighter weight, and enhanced corrosion resistance. Manufacturers and end users want products with long-term consistency and reliability.

To meet these demands, as well as  production and minimize environmental footprint, Jushi Group initiated the development of **E6[®] Enhanced Glass Fiber** in July 2006. The development was successfully completed in 2008 and was commercially available in 2009. Compared with traditional E-glass fiber, Jushi **E6[®] Enhanced Glass Fiber** improves composite properties and has less impact on the environment during manufacturing.

Jushi **E6[®] Enhanced Glass Fiber** is a new E-glass fiber, with enhanced properties. It combines all the benefits of E-glass fiber with technical breakthroughs in improved strength, elastic modulus, temperature  and corrosion resistance, thus meeting the requirements of the most demanding applications. **E6[®]** provides Jushi Group with a complete new technology platform on which new solutions are developed for a wide range of applications for different end-use markets.

E6[®] REINFORCEMENTS

Open A New Era for Composites

Performance Comparison of Laminates Soaked in Acid Solution

E-glass E6[®]

Comparison of longitudinal tensile strength of laminates soaked in 5% H₂SO₄

Comparison of longitudinal flexural strength of laminates soaked in 5% H₂SO₄

Superior mechanical properties

The use of E-glass reinforcements allows customers to design high performance composites beyond the limits of the polymer material itself. Jushi E6[®] glass fiber enables even higher composite performance. Compared with E-glass, composites based on E6[®] reinforcements have better mechanical properties including: tensile strength, elastic modulus, flexural strength, flexural modulus, shear strength and compressive strength. E6[®] Enhanced Glass Fiber has wide application fields in high performance composites, including: wind energy, high pressure vessels, geo-grids and sucker rods.

Test Sample	Property	Standard	E	E6 [®]
Tensile property of impregnated roving, Epoxy resin	Tensile strength (MPa)	ASTM D2343	1900~2000	2500~2700
	Tensile modulus (MPa)	ASTM D2343	73~75	81~83
1200 g/m ² UD fabric, (tested in 0° direction), Infusion process, Epoxy resin	Tensile strength (MPa)	ISO 527-5	/	1120.6
	Tensile modulus (MPa)	ISO 527-5	/	42.6
	Fiber Volume Content (%)	ISO 1172	/	53.6
	Tensile strength (MPa)	ISO 14126	/	805.5
	ensile modulus (GPa)	ISO 14126	/	42.9
	Fiber Volume Content (%)	ISO 1172	/	54.3

Product Sales Data - Q3 2023			
Product ID	Product Name	Category	Units Sold
P001	Smartwatch Series X	Wearables	12,500
P002	Wireless Earbuds Pro	Audio	8,750
P003	Smart Home Hub	Smart Home	5,200
P004	Portable Charger 10,000mAh	Accessories	15,300
P005	Bluetooth Speaker Mini	Audio	9,800
P006	Smartwatch Series Y	Wearables	11,000
P007	Wireless Earbuds Standard	Audio	7,500
P008	Smart Home Camera	Smart Home	6,100
P009	Portable Charger 5,000mAh	Accessories	18,200
P010	Bluetooth Speaker Large	Audio	4,900

ENVIRONMENTAL PROTECTION

Become a Model for Clean Production

Jushi Group is committed to improving our environmental footprint. We have invested heavily in the most modern technologies available to reduce pollutants in our air and water, and reduce waste.

E6[®] Enhanced Glass Fiber, is made with a glass formulation which significantly reduces air pollutants during manufacturing. Improved oxygen firing technology reduces total waste gas emissions from the furnace by 80% and the nitrogen oxide emissions by over 90%. State of the art glass recycling technology ensures zero discharge of any waste waste glass (slag). All waste water is treated and recirculated. Environment.

CUSTOMER AND TECHNICAL SUPPORT ORGANIZATION

Offer Best Technical Support

Jushi Group possesses world class core technologies and advanced testing and analysis capabilities for glass, organic chemistry, fiberglass and composites. We have established a global network of marketing and technical service professionals to help customers solve problems in materials development and process optimization. We collaborate closely with customers to address market challenges and promote the growth of the composite industry.

We will share with you all the information on E6[®] glass fiber composite products as well as our comprehensive knowledge of composites and molding technology and processes.
